- F. Time Delay Before Transfer to Normal Power - 0 to 300 seconds, adjustable; bypass time delay in event of alternate source failure.
- G. Time Delay Before Engine Shut Down - 0 to 10 minutes, adjustable, of unloaded operation.
- H. Programmed Transition – Transfers load to neutral position for 0-10 seconds (adjustable), disconnected from sources, to allow inductive load voltages to decay.
- I. Programmable Engine Exerciser - A 7/14 day electronic time switch with digital display for automatic weekly or bi-weekly testing of the engine-generator set. The exerciser shall be fully programmable and backed up by a permanent battery, and shall allow automatic testing with or without load. The system shall bypass exerciser control if normal source fails during exercising period.
- J. Engine Cranking Timer - Open starter circuit if engine fails to start after 45 seconds.

2.5 ENCLOSURE

- A. Enclosure shall be NEMA 1. Coordinate dimensions of transfer switch with Owner prior to releasing order to ensure it will fit in the intended installation location.

2.6 ACCESSORIES

- A. Indicating Lights - Mount in cover of enclosure to indicate NORMAL SOURCE AVAILABLE, ALTERNATE SOURCE AVAILABLE, SWITCH POSITION.
- B. Test Switch - Mount in cover of enclosure to simulate failure of normal source.
- C. Transfer Switch Auxiliary Contacts - 1 normally open; 1 normally closed.
- D. Normal Source Monitor - Monitor each line of normal source voltage; initiate engine starting when voltage drops below 70 percent after a 3 second time delay. Initiate retransfer when voltage is restored to greater than 90 percent of rated value.
- E. Alternate Source Monitor - Monitor alternate source voltage and frequency; inhibit transfer when voltage is below 80 percent.
- F. In-Phase Monitor – Inhibit transfer until power source and load are within 10 electrical degrees.
- G. Provide timer to prevent excessive transfer and retransfer operation during momentary line voltage dips.

PART 3 EXECUTION

3.1 EXAMINATION

- A. Verify that surfaces are ready to receive work.

- B. Verify field measurements of intended installation location to ensure the transfer switch will fit.
- C. Verify that required utilities are available, in proper location, and ready for use.

3.2 INSTALLATION

- A. The automatic transfer switch shall be mounted on the wall.
- B. Set the programmed transition to provide enough time delay for all motor driven equipment to come to a complete stop.
- C. Set the in-phase monitor for 10 electrical degrees. Adjust the following time delay settings as required.
 - 1. Set the time delay to start alternate source engine generator at 10 seconds.
 - 2. Set the time delay before transfer to alternate power source at 0 seconds.
 - 3. Set the time delay before transfer to normal power at 60 seconds.
 - 4. Set the time delay before engine shut down at 10 minutes.

3.3 FIELD QUALITY CONTROL

- A. Test transfer switch operation by opening the main disconnect to simulate a power outage. Observe startup of the generator and transfer of load to the generator. Close the main disconnect. Observe transfer to utility power and engine cool down and shut down. Record time delays.
- B. Where possible, correct malfunctioning transfer switch at site, and then retest to demonstrate compliance. Otherwise remove the transfer switch and ship it back to the manufacturer for repair or replacement.

3.4 PERSONNEL TRAINING

- A. Operating Personnel Training - Train personnel in procedures for starting-up, testing and operating transfer switches and auxiliary equipment.

Director

Awarding Authority: Auburn Water District
Contract Number: 2025-1 **City/Town:** AUBURN
Description of Work: Replace existing 30kWA emergency generator and automatic transfer switch with same.
Job Location: 75 Church Street

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, the awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. The updated wage schedule must be provided to all contractors, including general and sub-contractors, working on the construction project.
- This annual update requirement is generally not applicable to 27F "rental of equipment" contracts. For such contracts, the prevailing wage rates issued by DLS shall remain in effect for the duration of the contract term. However, if the prevailing wage rate sheet issued does not contain wage rates for each year covered by the contract term, the Awarding Authority must request updated rate sheets from DLS and provide them to the contractor to ensure the correct rates are being paid throughout the duration of the contract. Additionally, if an Awarding Authority exercises an option to renew or extend the contract term, they must request updated rate sheets from DLS and provide them to the contractor.
- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or a sub-contractor.
- Apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentices must keep their apprentice identification card on their persons during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DAS regardless of whether they are registered with another federal, state, local, or private agency must be paid the journeyworker's rate.**
- Every contractor or subcontractor working on the construction project must submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. For a sample payroll reporting form go to <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Contractors must obtain the wage schedules from awarding authorities. Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may file a complaint with the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
